Subject: Letter of Recommendation for GSeay Inc.

To Whom it May Concern,

I am writing this letter to provide my unreserved recommendation for GSeay Inc. As a Director of Engineering at CKS Packaging, I had the pleasure of working with George and his group at G Seay for 5+ years on several construction projects. Throughout this time, George and his group of professionals has consistently exhibited an exceptional level of skill, professionalism, and dedication in their role and our expansion of the Florida manufacturing plants.

Over the course of our working relationship, I have had the opportunity to observe GSeay's ability to manage various construction projects, from inception to completion. In addition to possessing a strong understanding of industry standards and best practices, George and his group has displayed an exceptional aptitude for problem-solving and adaptability in the face of challenges.

I would highly recommend George and his group at Gseay to anyone in the industry.

With kind regards,

Kevine McCarty
